|     | <b>Comments :</b>    | I'm Jocelyn. I was ritually abused by my parents and their friends who were Multigenerational Satanists and KKK members. Some of those people belonged to a Born Again Christian church, most of this occurring in Port Alberni, BC. I believe there could have been upwards of 50 people involved in total as I was often "sold" to certain members of the community as a child prostitute by my parents. Those times I was drugged. This happened for 19 years until I left home to move to Quebec to by on my own. My grandparents and others in the extended family practiced ritualistic ceremonies also in Waterville and Granby Quebec. I only started remembering at age 31 and have refused to have any contact with any family members since. I'm happy to say that I am finally much better, as it took several years of difficult memories and therapy to heal. I still have some unusual phobias (not unusual to me) and very few people know about this aspect of my past. It's still hard to tell people since there's a lot of denial about it in society as well as the fact that in the back of my mind I am still afraid of telling, as I will be "found and killed" (not true but it makes sense why I think it). If I can put in my two cents of encouragement to other Survivors on their healing: You have to follow your instincts and trust yourself. This can be the hardest thing to do sometimes but it's really important. I recommend the Safe Passage to Healing book by C. Oksana and keep looking to find the right therapist who will validate your experience. I hope I can find other ways to be an activist someday when I'm less afraid. But it's getting there. Thank you for this website. Keep up the good work. |

|     | <b>Comments :</b>    | My grandfather was a school teacher that molested kids and then moved when parents started complaining. Finally they stayed for awhile in San Carlos,CA. Then they permanently moved to Paradise,CA .Both my grandparents molested, broke bones, hyptnotized,tortured, urinated on us, tortured and gang raped with many other adults that they knew, and did child pornography to us. they tried to turn the sibilings against eachother. My grandmother is highly active in a catholic church to this day. there were times she seemed decent and times she was pure evil. That was th most confusing part of it all. Some of the family members want to remember her good side and communicate with her. I think it's unsafe for them. Some of the other family members lost their minds and didnt make it. I send loving thoughts and vibes to all of us! |  |

|     | <b>Comments :</b> Sexually, physically and emotionally assaulted by my parents since I was born. They also sold me and then I learned to sell myself. I began my healing work after my son was born. That was 13 years ago. I am now with a therapist with who I like to work with. The work to get out of this trap is hard but so far very worth it.   |   |
