

Penises all around

In the basement of the church on a Saturday evening ... there was the priest, the nun, and six other people—five men and one woman, naked under their black robes. The priest wore white and they dressed me in a white robe-like slip before laying me on the table which had three big candles on both sides which were so close to me I thought I was going to be burned. Chanting the priest cut my vagina, collected blood, then positioning him-Self at my feet the priest stood first in line, behind him were the six people, with the nun at my head. Their chanting increased as the priest raped me ... I had so much pain ... I was so confused ... I didn't understand ... terror ... feeling tortured all over as each took their turn at raping me ... I hurt so much ...

... Angel, a survivor of RAT
